

SUBJECT: Aconite CFO Dead & Suspicious Intercepts

FROM: Falcon Recon Team 3 [via US_CA Field Office]

TO: Office of Analysis

MESSAGE CONTENTS:

Our monitoring team picked up some encrypted messages being exchanged between the Aconite Capital CFO and an unknown third party over the course of a few days. In the middle of the night, the CFO received another encrypted message that prompted him to leave his San Francisco home. We followed him to Lake Merced Park where our team was waiting to see if the third party would meet him. It was at that moment when a gunshot was heard and the CFO was killed by a gunshot wound to the head. We suspect that a sniper was set up at the location and the third party used a message to bait the CFO into coming to the park. Our team quickly began searching the area for the sniper, but we were unable to find them. Hopefully the intercepts we obtained can lead to information on the third party we are tracking.

We recovered a text message on the CFO's phone that we believe is the bait that led the CFO to the park, we have included it below and also forwarded the full log of intercepts to NITE Team 4 for cryptanalysis. Initial investigation of the messages shows that the encryption likely uses a key.

Due to the urgency with which the CFO left his house and the fact that he kept these message exchanges a secret from his friends/family, we believe that messages were harrassments and that he may have been getting blackmailed (possibly with the same blackmail material we had obtained).
